EXPERIENCE

Software Engineer Intern Blackfort Consulting PH

Feb 2026 – May 2026

- Shipped features and resolved 20+ bug tickets across 20+ sprints on 4 concurrent client projects in a professional Agile/Scrum environment on Azure DevOps, maintaining on-time delivery across all sprints
- Diagnosed and fixed defects across enterprise-scale .NET 9 codebases including a healthcare compliance system (Blazor WebAssembly, CQRS, MediatR, RBAC) and a 14-project Clean Architecture timesheet solution, submitting 20+ PRs approved by senior engineers
- Built and wired CMS-driven content for the BF Website Revamp using Next.js 19, Strapi 5, and GraphQL with auto-generated TypeScript types via graphql-codegen, enabling educators to manage content without code changes
- Translated Figma designs into production-ready React components for The Learning Library Daily Drill, delivering client-requested updates across multiple feedback cycles with zero design regressions

Software QA Tester Upwork (Freelance)

May 2026 – Jun 2026

- Tested 2 live client platforms end-to-end across webinar SaaS and Shopify dropshipping, delivering structured written reports and screen-recorded proof-of-testing that surfaced actionable usability gaps for both product teams

PROJECTS

Saan Tayo Kakain (Where Do We Eat?)

May 2026 – Jun 2026

Next.js · TypeScript · Redis · Playwright · Vercel

- Engineered and launched a live GPS-based restaurant picker PWA, improving Lighthouse mobile performance from 71 to 92 and achieving 99 (desktop) with perfect 100/100 Best Practices and SEO scores
- Identified and patched a serverless rate limiter vulnerability using Upstash Redis (INCR + EXPIRE), authored 37 Playwright E2E test cases, and wired a GitHub Actions pipeline to run the full suite on every push

The Learning Library Daily Drill (WikayGaling)

Mar 2026 – May 2026

React · Tailwind CSS · Strapi v5 · Azure DevOps

- Built the complete quiz frontend across 3 question formats with countdown timers, star-based scoring, and localStorage persistence enabling zero-data-loss sessions for live users on unstable connections

BF Timesheet

Feb 2026 – May 2026

.NET 9 · Blazor WebAssembly · EF Core · PostgreSQL · Docker · Azure DevOps

- Navigated a 14-project Clean Architecture enterprise codebase (CQRS, MediatR, .NET Aspire) and resolved defects across Blazor client and ASP.NET Core Web API layers, maintaining zero regressions across sprint deliveries

NamNam

May 2026

Flutter · Dart · Firebase

- Led a 3-person team as sole architect on NamNam, a restaurant discovery app, delivering Firestore search, real-time rating updates, Firebase Auth, and Storage photo uploads under a suddenly shortened deadline, earning a perfect 100/100 grade

Personal Portfolio

Dec 2025 – Present

Next.js · GPT-4o-mini · AWS Lambda · API Gateway · S3 · CloudFront

- Deployed a production portfolio with a GPT-4o-mini chatbot on AWS Lambda and API Gateway, hosted on S3 with CloudFront CDN and SSL via ACM, per-IP rate limiting via Upstash Redis, and a GitHub Actions CI/CD pipeline that builds, syncs to S3, and invalidates CloudFront on every push

StudAI: AI-Driven Study Buddy with Gamified Engagement

Aug 2025 – Dec 2025

React · Node.js · MySQL · Firebase · OpenAI · DigitalOcean

- Built a real-time 5-player quiz battle system validated by 27 UST-CICS beta users with live score sync and results committed to MySQL in a single transaction, enabling seamless concurrent multiplayer sessions at capstone deployment
- Integrated OpenAI API for AI-powered quiz generation and built a solo DeepEval evaluation suite using GPT-3.5-turbo as LLM judge, achieving 9/9 pass rate across summarization and chatbot quality metrics

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, AngularJS, Blazor WebAssembly, shadcn/ui, Framer Motion, Zustand, PWA

Backend: Node.js, Express.js, Laravel, ASP.NET Core (.NET 9), RESTful APIs, MVC Architecture, GraphQL, Strapi v5

Database & CMS: MySQL, PostgreSQL, Firebase, Supabase, Redis, SQL Server, HeidiSQL

DevOps & Tools: Git, GitHub, GitHub Actions, Azure DevOps, Docker, Vercel, DigitalOcean, AWS, Claude Code, Figma, Postman

Mobile: Flutter, Dart, Android Studio, Kotlin

Design & QA: UI/UX Design, Manual Testing, Playwright, Cross-browser Testing, Python

Certifications: PhilNITS IT Passport, CompTIA ITF+, Cisco JavaScript/CSS/HTML Essentials, Microsoft & LinkedIn Gen AI

EDUCATION

BS Information Technology — University of Santo Tomas

Jun 2022 – May 2026

Dean's Lister 2022–2026 | Portfolio: vinceviana.com | Relevant: Software Engineering, Web Systems, Mobile Dev, Database Management
